Thunder Bay's Guide to  
Accessible Community Services  
for Persons with Disabilities

*working towards a **Barrier - Free** Thunder Bay*

---

**We are working toward  
a Barrier-Free Thunder Bay!**

# ACCESSIBLE THUNDER BAY

More than 1.5 million people in Ontario have a disability and face barriers to accessibility on a regular basis. The Ontarian's With Disabilities Act came into effect on September 30, 2001. The goal of the Act is to improve the accessibility of communities throughout Ontario by removing existing barriers over time and by preventing new barriers from being created. As part of the legislation, your hospitals, post-secondary institutions, schools, municipal and provincial governments have developed annual Accessibility plans. These plans can be found on each of the web sites to the right.
