How can you be a good human being?

Crime Stoppers

There have always been two overriding reasons why people are reluctant to get involved in a criminal investigation. Fear and apathy. People are afraid of reprisal by individuals involved in criminal activity, and people are reluctant to get involved because they feel their information is insignificant or they can't be bothered to make that phone call. Crime Stoppers has been able to overcome both obstacles.

City of Thunder Bay Crime Prevention Council

The vision of this council is that Thunder Bay is safe and welcoming for all.

Roots to Harvest

Roots to Harvest is about food, about young people, about community, and about doing things in good ways. The first time a person learns where food comes from; the life changing experience of serving those in need; the heat of a greenhouse; the dirt under your fingernails; the feel of a handful of red wiggler compost worms; the first seedlings - all capture the unique experience that Roots to Harvest and Erin Beagle endeavour to bestow on those who unit in this movement.
