As a standing committee of the Board, SEAC makes recommendations to the Board regarding the establishment, development and delivery of Special Education programs and services. SEAC is comprised of representatives from local associations/agencies, community representatives and Trustees who work together to improve educational outcomes for all students.

SEAC members act as a resource for families as they navigate the education system.

SEAC Advocates provide information, advice, and assistance to parents/guardians who may require additional support. Members promote the interests and well-being of all students.
