Snow is not to be piled against any buildings, sheds, fences, playground equipment, parked vehicles or other areas that had been previously designated on the site diagram.
- The Contractor shall, following every snow fall, remove snow from: propane tank compound filling and vaporizer areas, all parking lots, driveways, snow beside the school and fire routes on the school property. - A spring clean-up is required, this includes: sweeping accumulation of sand, removal of debris and any necessary raking at a date determined by the principal.

The Contractor shall ensure the satisfactory completion of all duties of their employees.

SECTION 4: SPECIFIC REQUIREMENTS

The awarded contractor shall use and submit LDSB's Certificate of Insurance form – Appendix H.

The Contractor will be responsible for instructing and training all of their staff and providing detailed lists of duties for each employee's area of responsibility. The Contractor shall ensure the satisfactory completion of all duties of their employees.

4.8 WSIB

Only the successful bidder must provide a Certificate of Clearance from the Workplace Safety and Insurance Board (WSIB) prior to commencement of work, certifying that all assessments and liabilities have been paid, and that the bidder is in good standing with WSIB.

In accordance with Ontario regulations regarding the Safe Schools Act, LDSB will require a Police Records Check or proof of application including vulnerable sector, for the successful service provider, and/or service providers who have employees that come into direct contact with students. All procurement requests called for by Lakehead District School Board, also referred to as LDSB or the Board, will bind bidders to the terms and conditions herein set forth.

Where conditions within a procurement document are contrary to these Standard Terms and Conditions for Procurement Requests, the conditions specified in the procurement document will prevail.

BID SUBMISSION:

1. Bids must be legible in ink or typewritten and submitted on and in accordance with the instructions and forms provided in the LDSB procurement document. Alterations, erasures, or modification by any means to the original document is not permitted under any circumstances. Tampering with the original documents may result in bid disqualification.
2. Bid submissions must be in English only. Submission documents received by LDSB not in the English language will be disqualified.
3. Submissions must be received in a sealed envelope clearly indicating the procurement name, number, the bidder's name and address and any other information that may be requested in the procurement document.
4. Submissions or amendments received by fax, e-mail, or telephone WILL NOT be accepted unless otherwise specified in the procurement document.
5. All submissions which are received by the stated closing time may be opened publicly, at the discretion of the Board. The disclosure of information provided will be limited to the names of the bidders, and only if applicable, the total bid price.
6. Any bid received by the Purchasing Department later than the time and date specified WILL NOT BE CONSIDERED, and will be returned at the Bidder's request and expense. The time and date referenced in an LDSB procurement document will be Thunder Bay, ON Local Time. For the purpose of documenting time, the web clock NRC (National Research Council Canada) official time at the submission location, shall govern.
7. Submissions will remain irrevocable in the form submitted by the bidder for a period of sixty (60) days from the closing date and time of the procurement process, unless otherwise specified in the procurement document.
8. The bidder will not rely upon any oral or written information or representation provided to them by anyone other than the LDSB contact person referenced in the procurement document, and any written addenda to this document. Lobbying during the competitive procurement call or "black out period," is prohibited. This includes any communications with anyone other than the LDSB contact from the time of issuance of procurement document, up to and including the time of award. All correspondence in regard to the procurement document and specifications must be directed to the LDSB contact person named in the document.

The bidder is required to promptly examine all of the documents and report any errors, omissions or ambiguities, and direct questions or seek additional information in writing, on or before the deadline for questions.

It is the responsibility of the bidder to seek clarification on any matter it considers to be unclear. LDSB will not be responsible for any misunderstanding on the part of the bidder concerning the procurement request or its process.

9. If applicable, the bidder will be required to sign a Tax Compliance Declaration Form as confirmation of the bidder's compliance with all tax statutes administered by the Ministry of Revenue for Ontario. This will serve as verification that the bidder's provincial taxes are in good standing.
10. The bidder will be required to sign a Declaration of Conflict of Interest statement to indicate whether there is a perceived, actual, or potential conflict. If, at the sole and absolute discretion of LDSB, the bidder is found to be in a conflict of interest, LDSB may disqualify the bid. Where LDSB discovers a bidder's failure to disclose an actual or potential conflict of interest, LDSB may disqualify the bidder or terminate any contract award to that bidder pursuant to this procurement process.
11. In accordance with Ontario regulations regarding the Safe Schools Act, LDSB at its discretion, may request a Police Records Check for a service provider. Failure to provide the documentation may disqualify the bid
12. In responding to a procurement request, bidders must not submit alternative strategies or solutions unless more than one is expressly requested in the procurement document or is approved by written request prior to the final addendum release date. In the event more than one solution is requested, it must be treated as a separate bid and submitted in another sealed envelope following the guidelines of the procurement document.
13. A submission that includes the bidders own contract, terms and conditions, options, variations, or contingent statements that are contrary to or inconsistent with the terms set out in the procurement document, may be disqualified. Only contractors represented at the mandatory site visit will be eligible to submit a bid. If a sub-contractor, with his attendance, is representing a prime contractor, this must be acknowledged on the sign-in sheet or the contractor will have been deemed to have not attended and will not be allowed to submit a bid.

In the event only one potential bidder attends the site visit, LDSB reserves the right to re-schedule a second visit, to ensure competitive submissions are received.

17. In order to establish a basis of quality, certain materials, processes, types of machinery and equipment may be specified either by description of process or by designating a manufacturer by name and referring to a brand or product designation. It is not the intent of these specifications, unless noted otherwise, to exclude other processes, equipment, or materials of equal value, utility or merit, which are approved by LDSB.

For purpose of the procurement process, definitions of Equivalent and Alternate Products are as follows. **EQUIVALENT PRODUCT** is a substitute item to the item requested that is not identical, **but equal or better** to the product requested, having sufficient common specifications to be capable of being used for the same purpose and achieving equivalent results. **ALTERNATE PRODUCT** is a substitute item that does not fully meet the requirements of the requested product, but in the opinion of the bidder, achieves the same results.

LDSB reserves the right to inspect or test any substitute offered to determine equivalency and may require demonstrator or sample items in order to be able to evaluate the substitutes proposed. LDSB is the sole judge as to whether substitute products are considered equivalent or acceptable and meet the intent of the original mandatory requirement.

In submitting a bid on an item other than as specified, the bidder must include with the submission complete technical data and descriptive literature with respect to the substitute item proposed, unless otherwise stated in the procurement document. FAILURE TO DO SO MAY RENDER THE BID INVALID. Consideration will be given to bids submitted on substitute items to the extent that such action is deemed to serve the best interests of LDSB.

If the bidder does not indicate that the item he proposes to furnish is other than as specified, it will be construed to mean that the bidder proposes to furnish the exact item as described in the tender specifications. Items listed as NO SUBSTITUTE must be quoted as described.

18. Samples, when requested, are to be submitted strictly in accordance with instructions of the specific procurement document; otherwise the bid may be disqualified.
19.
