

What a parent should know about Accident Insurance

Accidents can and do happen. They happen when children play, do sports or participate in activities. If an accident happens and a child is physically injured, their recovery might have financial costs.

The financial costs of an accident might be ambulance fees, casts, crutches, physiotherapy or emergency dental care. Who pays the expenses? The parent/guardian has to pay the expenses that are not covered under a government health insurance plan or an employer health plan.

Schools and school boards do not provide coverage for accidents that happen at school.

Your school board has arranged for Old Republic Insurance Company of Canada to offer you insuremykids® coverage. Participation is voluntary but highly recommended.
